Colour of sunshine, Oranges, and Joy

Colours are the smiles of nature, so is the colour Orange! - Anonymus

Having colour-themed days is a great way to introduce and reinforce colours to young children. To make our little learners understand the concept of secondary colours, Grade Nursery celebrated Orange Day on August 3, 2023. As orange radiates warmth, stimulates appetite, and encourages socialization, children and teachers clad themselves in orange attire. Children enjoyed the special assembly, which was followed by a Tang-making activity where they prepared Tang and enjoyed drinking it. In a nutshell, the celebration served its intended objective, and children took part in it with tremendous energy and excitement.

Blue Skies, Brighter Smiles

"The sun is up, the sky is blue; It's beautiful, and so are you." -John Lennon

To introduce our little munchkins to the mesmerizing world of colours, Blue Colour day was introduced to children of Pre-Nursery in an interactive and lively way on August 10, 2023, that depicts calmness of sky and coolness of water. The pleasant shades of blue added life, serenity and vigour to the campus. Confident tiny tots attired in the colour of sky and sea created waves of excitement and exhilaration. Children were exceedingly motivated to fabricate a crafty aquarium in shades of blue. The teachers were beaming with pride when the cute little learners displayed their speaking skills during the Show and Tell activity. It was a fun-filled day for our young learners.

Tiny Cook In Action

"My brain, body, soul, feel ignited, when I see those three ordinary colours, merging together extraordinary." - Arth

The Indian tricolour has great significance in terms of history and the cultural connotations attached to it. To reinforce the concept of tricolours, Pre-nursery organized an activity named Hot Crossed Buns. Mixing diverse fillings in their sandwiches and adhering to the tricolour theme provided an engaging hands-on experience that helped young minds to understand the significance of the Indian flag and its cultural heritage. The activity not only promoted creativity and teamwork but also fostered a sense of patriotism in our little learners.

My Country, My Pride

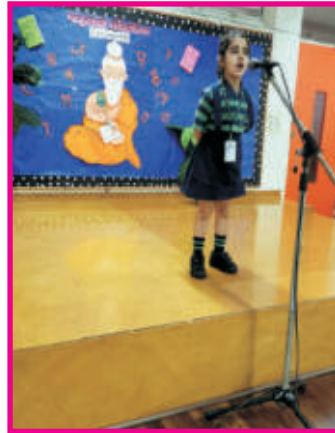

All we desire for our country is happiness. Let's salute our great nation on its Independence Day! We are so grateful for the freedom we have and are proud of the nation we were born to! - Anonymus

Every year on August 15, India celebrates Independence Day with zeal and excitement across the entire nation. To salute those patriots who shed their blood to achieve freedom and to mark the importance of this day, a grand celebration was organized by the young learners of Pre-primary on August 14, 2023. The celebration began with a morning assembly presented by the little dipsites, featuring a few phrases and slogans, and was followed by dancing to the beats of patriotic music. They were also engaged in a salad-making activity that featured the country's tricolors and displayed their creativity in making a craft. The festivities were marked by enthusiastic displays of tricolor outfits and the hoisting of the National Flag. This remarkable occasion not only paid homage to India's remarkable history and heritage but also instilled a profound sense of pride and unity among the young learners.

Amrit Vani

To inculcate moral values and encourage the importance of mother tongue 'Hindi' among our students, Hindi Doha Recitation competition was conducted for the children of Grade Prep in the month of August. Our cute little munchkins recited Dohas of great personalities like Kabir, Tulsidas, Rahim, Raskhan, Nanak, etc. It was truly a captivating event that left us in awe of the wisdom and teachings of these remarkable individuals. The children showcased their eloquence and deep understanding, leaving everyone inspired. This competition helped our children develop their language skills and built up their self-confidence.

Bring on the brown!

"Brown is a colour that evokes relatability, strength and helps us to relate with mother earth." -Anonymous

To increase the knowledge of colours and their significance, Grade Nursery organized Brown Colour Day on August 24, 2023. Little munchkins came dressed in different shades of brown, and the importance of brown colour was delivered effectively with a series of activities to make learning fun for our tiny tots. The celebration kicked off with a joyful Cookie-making activity, which continued with dance and a storytelling session. Our munchkins relished and shared their cookies with peers and teachers. It was indeed a fun-filled day for our little learners.

Kaleidoscope – Inspiring the inner self

We are delighted to share on the highly successful event of our first edition of the Inter-school competition, Kaleidoscope – Inspiring the Inner Self. The competition aimed to provide a platform for young abilities of Pre-primary from various schools to showcase their skills and aptitudes in a friendly and supportive environment. Twenty Three neighbouring Schools participated in this unforgettable event with utmost fervour and zeal. It consists of a wide array of events, catering to the diverse interests and talents of the young participants. Tiny tots of pre-primary participated in Junk Couture, Clay Co and a special workshop for guest teachers. It was delightful to watch our little munchkins display their persuasive and creative skills. The success of the competition from preparations till the distribution of the awards was inspiring and would not have been possible without the hard work, dedication and creativity demonstrated by the participants.
