Welcome Back to School

"School bells are ringing loud and clear; vacation's over, school is here."

- Winifred C. Marshal

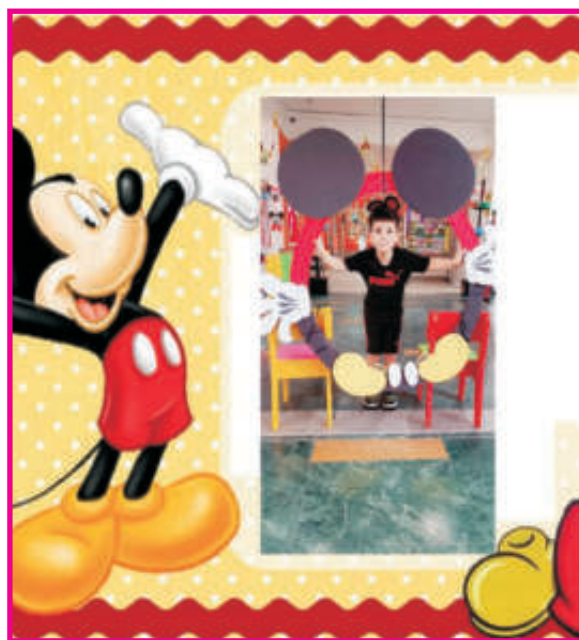

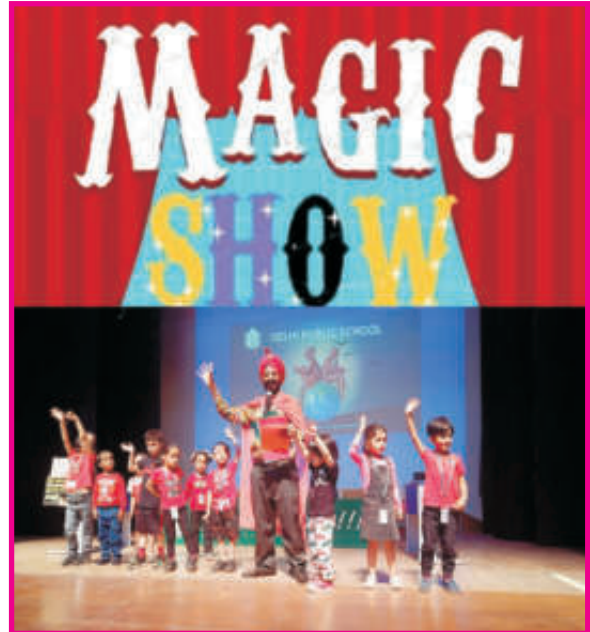

To welcome our little bundles of joy back to the school, Grade Prep organised a fun-filled 'Welcome Assembly' and 'Magic Show' on July 4, 2023. Teachers welcomed their tiny tots with the enactment of the story 'The Hungry Caterpillar' to instil healthy eating habits. To keep our little munchkins entertained, a Magic Show was organised. They were mesmerised to see the magician's tricks and illusions, which not only entertained but also inspired the children, igniting their imagination and curiosity. Any celebration is incomplete without music and dance, so the kids grooved with their mentor on their favourite party songs. It was truly a memorable day for the teachers as well as the kids.

Fun & Frolic

"Just play. Have fun. Enjoy the game." - Michael Jordan

After the refreshing summer break, a Fun and Frolic Party was organized by Grade Nursery on July 4, 2023. The corridors were transformed into a whimsical Mickey Mouse Wonderland. The children were adorned in beautiful black and red costumes, adding to the vibrancy of the occasion. Various engaging activities were organized to keep the children entertained and immersed in the magical world of Mickey Mouse. There were Magic Show, Crafts, and Interactive Stations where the little ones could unleash their creativity and imagination. The celebration was undoubtedly etched in the memories of the tiny tots as a moment of pure happiness and wonder.

Little Chefs at work

"Cooking with kids is just not about ingredients, recipes, and cooking. It's about harnessing imagination, empowerment, and creativity." - Anonymous

Imparting life skills through experiential learning is an integral part of preschool education. With an aim to promote holistic development, an interesting 'Cake Baking' activity was organized to recapitulate letter 'C' for our little Pre-nursery Chefs on July 13, 2023. Children looked astonished in cooking gear and aprons as they baked a delicious cake with all the required ingredients. They performed the activity with great fervor and showed their culinary powers to one and all. The motive of this fireless cooking activity was to generate interest in cooking skills and ignite a love for healthy and homemade food amongst our little learners.

Styling Tomorrow

"Style is not just about what you wear today, but a reflection of who you want to become tomorrow." - Anonymus

The fashion show competition named Styling Tomorrow based on the theme 'What I want to be' was organised for the young learners of Grade Prep in the month of July 2023. It was a beautiful amalgamation of dreams, talent, and the power of self-expression. The runway came alive with a kaleidoscope of colours, textures, and designs reflecting the vibrant personalities and imaginative minds of the young models. Their costumes were meticulously crafted, captivating the audience and igniting their own fantasies of what they could become. Overall, it was a celebration of their individuality, inspiring all to believe that no dream is too big or too distant.

Decked in Yellow, we are in mellow!

"Yellow is capable of charming God." –Vincent Van Gogh

To introduce our little munchkins to the mesmerizing world of colours, Pre-nursery celebrated Yellow Colour Day on July 19, 2023. Children were not only dressed in yellow attire but also brought yellow objects to make it a complete Yellow Day. Our cute learners were fully engrossed in making the Mango Shake and relished the taste of yellow food in their lunch boxes. Teachers were beaming with pride when the confident little commentators described the yellow object with flare and ease. It was a fun-filled day for our young learners.

Stop! Don't waste trash!

"Recycling things is like magic that turns ordinary things into extraordinary."

The Sustainable Drape competition was organized by Grade Nursery on July 21, 2023, aimed to raise awareness among children about the uses of waste materials and the importance of reducing waste to secure our future. The event brought together young children with imaginative minds, resulting in a burst of creative energy. The highlight of the event was the costumes the children wore, which were made from different waste materials. These eye-catching outfits served as a testament to their ingenuity and commitment to the environment. The competition not only encouraged creativity but also fostered a sense of responsibility towards the environment in the young minds.

Go Green

"Green is the colour of farming, green is the colour of nature, green is the colour of environment and also green is the colour of life." -Anonymous

Food colour is the simplest and quickest way to identify colours in our daily lives. To inculcate healthy eating habits in kids, Grade Nursery celebrated Green Colour Day on July 20, 2023. Children were awestruck to see green food in their tiffins and happily relished the taste of it. Children were dressed in green attire and were mesmerized to do the vegetable printing. To further enhance the colour, our little munchkins were fully engrossed during the activity 'Plant a Sapling', wherein they were instilled with a love for Mother Nature. They later recapitulated the green colour with different green objects and melodiously sang green vegetable rhymes.

Kathakaar

"The purpose of a storyteller is not to tell you how to think, but to give you questions to think upon." – Brandon Sanderson

It's the stories that give wings to our imagination and take us to places beyond the boundaries of our physical world and into the land of fairies and wishing trees. The W.E. story-telling sessions for Grade Prep were organized in the month of July 2023 to foster the skills of creativity, listening, and reading in the minds of the children. To capture attention, our tiny tots were asked to illustrate the story in their own way. Developing communication skills and expanding the sphere of their thoughts was the main objective of these sessions. Overall, it was a great learning experience that was thoroughly enjoyed by the children.
