Let's Nurture Our Mother Earth

"The greatest threat to our planet is the belief that someone else will save it."

- Robert Swan

Little deeds to save the Earth go a long way in making a big difference. Every step we take counts. With a motto to preserve our planet, little environmentalists of Grades 1 and 2 participated in In-house Work Education activities on the theme 'Let's Nurture Our Mother Earth' with great enthusiasm and joy. The month started with an exciting activity, wherein our little ones made a 'Happy Earth and Sad Earth' depicting the Earth's plight through their creative drawings. The children learned the importance of the 3R's- Reduce, Reuse, and Recycle by making a newspaper bag out of old newspapers. In addition, children were sensitized about how we can help Mother Earth to flourish, followed by the 'Plantation drive' by our dipsites. The young planet protectors also got the opportunity to participate in the speaking activity 'Let's tittle-tattle for our Mother Earth', wherein they expressed their ideas about preserving the resources provided by our loving Mother Earth for future generations. It was indeed an enriching month for the children as well as the teachers.

IT Geeky Week

The digital revolution is far more significant than the invention of writing or even of printing. - Douglas Engelbart

As technology elevates work, it is an indispensable part of our lives. It helps children to learn about the world around them and become an independent learner more quickly. Keeping the same ethos in mind and in line with the Sustainable Development Goal- 9 'Industrial, Innovation, and Infrastructure', IT Geeky Week was organised at DPS, GBN for the students of Grades 1 and 2. Array of activities were planned for the students to make the learning experience more enjoyable and interactive. The five basic parts of computer were introduced to Grade 1 learners as they visited the computer lab, while Grade 2 students made wonderful collages expressing their love for computers. Children enthusiastically participated in an exuberant discussion and shared their knowledge about the uses of computer. The Tagore Auditorium served as a venue for an interactive presentation which fostered our young dipsites to understand the pivotal role of computer in our daily life. It was indeed an enriching week for our future Tech Tycoons.

Books and Beyond

"A book is a device to ignite the imagination" -Alan Benett

It is rightly said that books give wings to imagination and provides information of the real world. It sculpts our personality and thought process. Keeping the same thought in mind, Book Week was organised for the young readers of Grades 1 and 2 from Monday, May 8 to Friday, May 12, 2023. The week kick started with a visit to the Book Fair, wherein the young scholars got an excellent opportunity to explore the boundless world of books and build their own home library. On the second day, students paid tribute to Shri Rabindranath Tagore and made vibrant bookmarks with utmost creativity to hold their right place while reading the books. Good books and stories can teleport you to a land full of imagination with amusements and excitement. Hence, on the final day, a rattling good story was narrated to the children in a very joyful manner. The whole week turned out to be very fruitful as the children learnt moral values from the stories and the young readers got highly motivated to continue their love for reading.

Salute to Motherhood

"All that I am, or hope to be, I owe to my angel mother." -Abraham Lincoln

The bond of a mother and her child is inexplicable. She is the first teacher and friend of her child. Mother's Day – the day that recognizes the essence of a mother, was celebrated in high spirit and merriment at DPS, GBN on Friday, May 12, 2023. The celebration was conducted with an aim to salute the efforts of all the mothers for their unconditional care, support and love in making every day blissful. Grades 1 and 2 students passionately got involved in making a winsome card for their mothers and expressed their love by writing beautiful messages on it. It was a delight to see the dynamic and energetic children preparing a special Mother's Day card for their wonderful mothers. With this activity, they learnt to show love, gratitude and appreciation for their mothers.
