If I Had a Superpower – Inter House Competition

“Imagination is more important than knowledge.” - Albert Einstein

Our young talents of Grade 3 showcased their creativity, self-expression and oratory skills in the Inter House Competition- 'If I had a superpower' on the theme 'Imagination is more important than knowledge' on May 3, 2023. This Inter house event not only boosted their confidence but also gave them a sense of recognition. The students spoke with confidence and zeal, inspiring one and all with their wonderful ideas.

The results are as follows:

Ahaan Gupta 3D Ganges House - First

Harvi 3C Jhelum House- Second

Nidhima Varshney 3H Ravi House - Third

Elina Trivedi 3D Chenab House - Third

Book Week

'There is no friend as loyal as the books.'

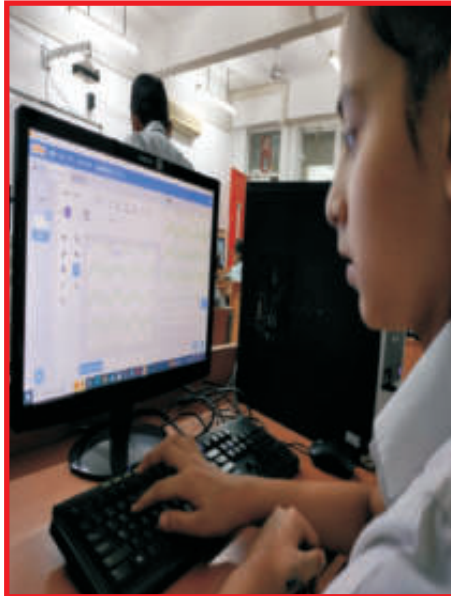

Intrigue, interest and curiosity were sentiments that reigned through our little ones as Students of Grades 3-5 indulged in the Book Week organized by DPS, GBN in association with Scholastic India Pvt. Ltd. from May 8-13, 2023. In pursuit of curating readers and with a vision of formulating future literary figures, specially designed activities were laid out for the students. It was a moment of exhilaration as the Best Readers, were felicitated with Star Reader Certificates by the School Principal, Ms. Supriti Chauhan. She also interacted with the students at the Book fair, browsing and recommending the different Genres of books, a true reflection of lead by example.

IT WEEK

"Technology is best when it brings people together." — Matt Mullenweg

To lay a powerful foundation and to create an interactive learning of Computer Science among the children, the School organized 'IT Week' in the month of May 2023. A Plethora of activities was planned to make learning fun and engaging. Scratch games, coding sessions and a workshop on Artificial Intelligence encouraged the students to boost their IT skills and knowledge. Students participated in all the activities with full enthusiasm and zeal.

Work Education

Work Education forms a fundamental and vital part of a school curriculum and we at DPS, GBN firmly believe in making Work Education an organized and purposeful area for the students. These classes let the child step forward to innovate and help them to develop various skills like critical thinking, problem-solving, decision-making, oratory skills, etc. On May 13, 2023 parents got an opportunity to interact with the teachers and various coaches during the PTM. It was a fruitful interaction as parents discussed various strengths and areas of improvements in their ward.

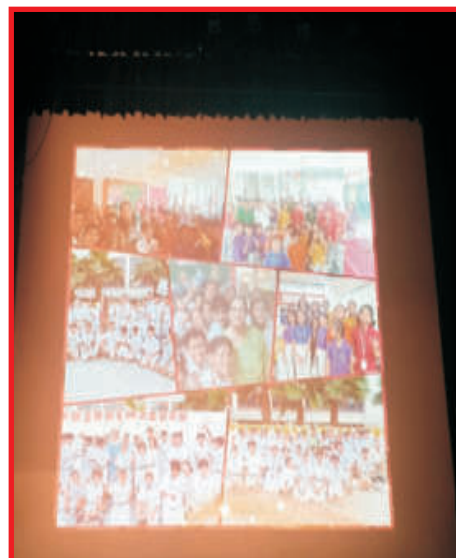

Mother's Day

'A mother is your first friend, your best friend, and your forever friend.'

Mother's love is unconditional. They gently steer the child to live a life of worth and value, nudging them not only to dream but to achieve those dreams. To celebrate the essence of motherhood, Grade 3-5 celebrated 'Mother's Day'. Students enjoyed making beautiful crafts and cards for their mothers' with an adorable message.

Students of Grade 5 conducted a special assembly to honor their mothers'. Through this assembly, they thanked their mothers for the unconditional love that they receive from her. Our very dynamic Principal ma'am also shared her kind words. The children participated with great zeal.

Inter House Chess Competition

"Sports do not build character. They reveal it." - John Woody

Sports keep us fit and help build several characteristics and personality traits in a person. DPS, GBN conducted Inter House Quarter Final, Semi Final and Final Matches of Chess for Grades 3-5 on the theme, 'Go for Glory'. These Inter House Matches aimed to inculcate the importance of Sustainable Development Goal 5: Gender Equality in our Students. This event helped our Students to focus on their goals and understand how to tackle challenging situations in life.

Happy Holidays

Every Summer has a unique story. Summer time is a time to relax and come back rejuvenated. It is a time to learn and experience new tasks and hobbies and spend time with our families. Keeping the same objective in mind, the students of Grade 3 presented a beautiful assembly demonstrating the excitement and eagerness to go under vacation mode. The assembly began with a beautiful prayer followed by a skit. The students also tapped their foot on the song 'Happy Holidays'. The assembly came to an end with a special message to utilise holidays in a constructively in a positive manner. Students also enjoyed a class party on their last day. They played games, enjoyed their favourite snacks and bid goodbye on a positive and joyful mode.

3rd Language

"A different language is a different vision of life." - Federico Fellini

Learning is a continuous process that involves the transformation of information and experience into abilities and knowledge. Learning another language not only helps us to enter a different world but also helps us to widen our prospects. The children of Grade 5 enjoyed answering certain exciting facts related to Spain. The language Spanish helped them to relate to the culture and the traditions. On the other hand, the German students were introduced to numbers. They enjoyed writing their age and their parent's mobile numbers. Learning a foreign language is indeed always a thrilling experience for the students.

English

"Imagination is the beginning of creation. You imagine what you desire, you will what you imagine, and at last, you create what you will. -George Bernard

Creative writing is a way of expressing ideas and emotions through written work. Summer vacation is a time when students can relax and enjoy their free time. A paragraph writing activity on the topic 'How I wish to spend my vacation' proved to be a valuable exercise in nurturing students' writing skills, fostering creativity, and promoting self-expression. Such activities play a crucial role in nurturing well-rounded individuals who can effectively communicate their ideas, emotions, and experiences. Kudos to the students for expressing their ideas.

EVS

"For the things we have to learn before we can do them, we learn by doing them." – Aristotle

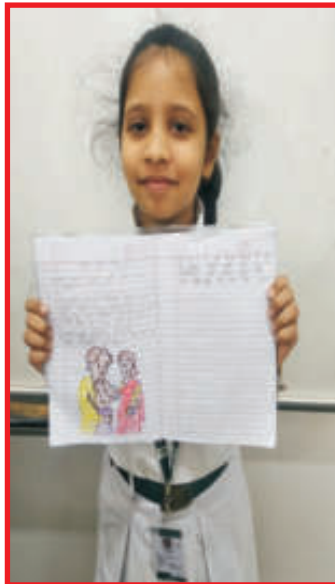

Our curious minds of Grades 3-5 were introduced to many concepts with the help of STEM activities. They were introduced with the different body parts and their functions. The stem kit helped them to differentiate between the internal and the external organs. They also learned about the motorboat and its working. The activity was indeed an engrossing one. Students also learned about the movements of the Earth, also observed the change due to which day and night occur, using a working model. All the students thoroughly enjoyed the activities and took part with great gusto. It was a great learning for every student.

"नैतिक मूल्य हैं मनुष्य के आधार स्तम्भ"

शिक्षा का लक्ष्य मस्तिष्क का विकास करना है, ताकि व्यक्तित्व का एक समग्र रूप सामने आ सके। व्यक्तित्व के विकास में नैतिक शिक्षा का प्रमुख महत्त्व है, अतः यह कहना गलत नहीं होगा कि नैतिक मूल्य मनुष्य के आधार स्तम्भ हैं। बच्चों का नैतिक मूल्यों के प्रति रुचि बढ़ाने हेतु कहानी विधा को महत्त्व दिया जाता है। ऐसे में महापुरुषों, राजकुमारों, पंचतंत्र, पशु-पक्षियों पर आधारित कहानियाँ तथा जातक कथाएँ बच्चों की मन में एक गहरी छाप छोड़ती हैं।

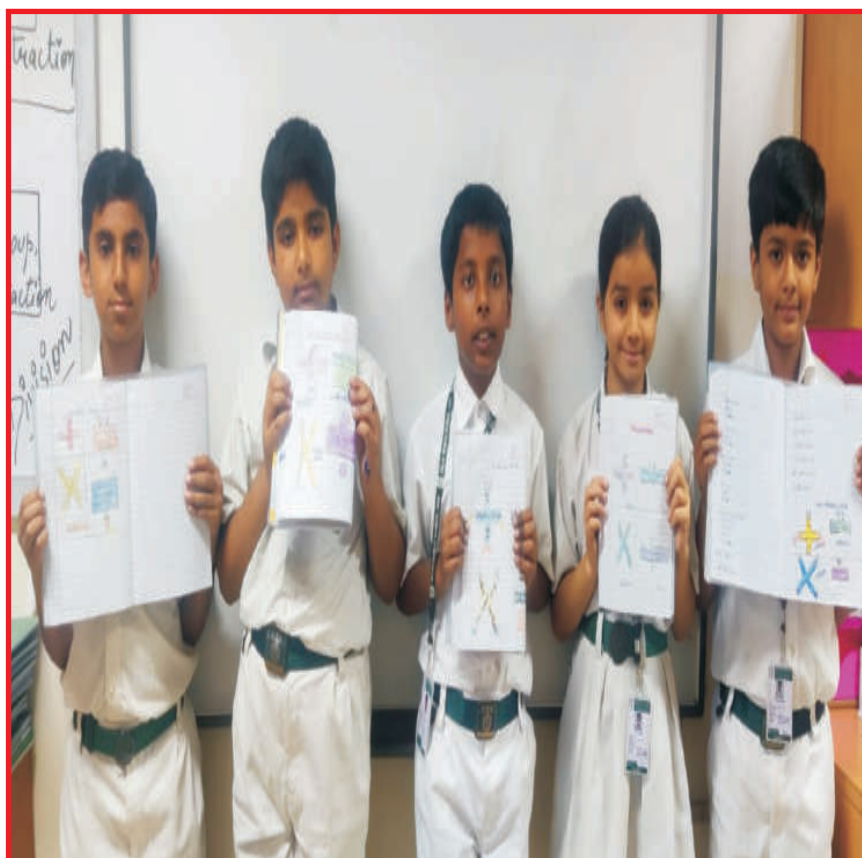

मन में विश्वास और आशा के साथ कक्षा चार के विद्यार्थियों के लिए नैतिक शिक्षा पर आधारित कहानी 'विपुल की सूझ' के सबसे समझदार पात्र का चित्र बनाने की गतिविधि का आयोजन किया गया, जिससे हिंदी भाषा के साथ नैतिक शिक्षा एवं कला का समावेश करके छात्रों को जीवन जीने की कला से परिचित करवाया गया। इस गतिविधि की मुख्य विशेषता नई 'राष्ट्रीय शिक्षा नीति' के अंतर्गत 'सतत विकास लक्ष्य' का अहम् उद्देश्य 'लक्ष्य हेतु भागीदारी' के प्राप्ति के अपेक्षा है।

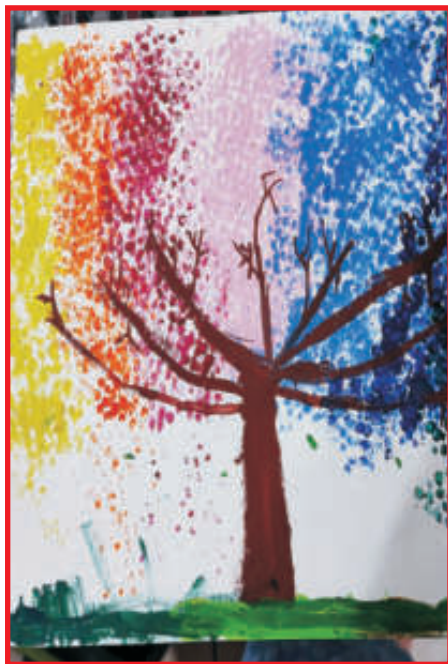

Mathematics

"Wherever there is a number, there is beauty." — Proclus

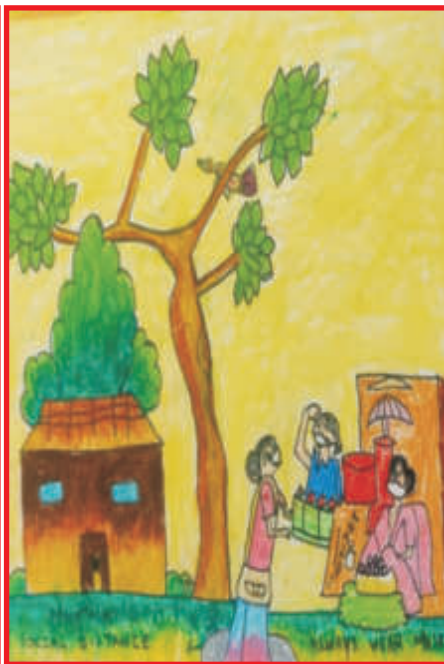

The four basic operations viz. addition, subtraction, multiplication and division form the basis of Mathematics. To strengthen these processes, the Students of Grade 5 were engaged in an interesting 'four operations' activity, wherein they comprehended and understood the vast usage of these operations. They drew the signs related to these operations in their notebooks and were amazed to know the numerous names used for these processes, and wrote them within their drawings. They were able to visualize various situations in which all these operations are used in our daily lives. Needless to say, Mathematics is all around us, in everything we do and we at DPS, GBN, leave no stone unturned to instill Mathematical skills in our young scholars.

Sports

Menstrual Hygiene Workshop

With an aim to increase awareness among girls about menstrual hygiene, a workshop was conducted in DPS, GBN on May 17, 2023. This endeavour by the School will help empower girls to become confident women reaching greater heights!

Achievers'Gallery

"That's one small step for man, one giant leap for mankind." - Neil Armstrong

- Our young achiever Parnika Sharma of Grade V has emerged victorious in the Parados Chess Event, U11 category. She has been selected to represent the district in the upcoming State and National level competitions.
- Avantika Rana of Grade 3 stupendously performed at the Concor New Delhi Zone/District Ranking Badminton Championship-2023 and bagged the gold medal.

Teachers' Workshops

"The best way to have a good idea is to have a lot of ideas." - Linus Pauling

Workshops help teachers in developing and learning new teaching strategies, strategies of classroom management, technological advancement, etc. and provides a chance to interact with experts from the specific field. Keeping the same ethos in mind, Teachers of Grades 3 to 5 attended many workshops in the month of May. The sessions were well organized and engaged the teachers in a positive way as it was informative and fruitful. The sessions were interesting, motivating and knowledgeable. The content was relevant, interesting and well presented. Workshops were well paced and resources were clear and concise which created an effective learning environment.
