Let It All Hang Out

"The alphabet is the key to unlocking a world of knowledge." - Anonymus

We at DPS, GBN believe in learning through hands-on experience and to recapitulate the letters and phonic sounds, a Show and Tell Activity was organised for tiny tots of Grade Pre-Nursery on September 4, 2023, where our young learners showcased their cherished possessions by presenting objects linked to specific letters and shared fascinating stories. The children skilfully recounted tales of adventure, creativity and transporting everyone on a journey through their chosen items. It was a delightful showcase of imagination, where narratives breathed life into each object's unique significance.

Janmashtmi Celebration

"May the lord Krishna's flute invite the melody of peace, harmony and love in your life." - Anonymus

The hearts of our lovely children were filled with enthusiasm and joy, which was evident in the celebration of the felicitous occasion of Janmashtami. Cute little munchkins in pre-primary wing celebrated the birth of Lord Krishna on September 6, 2023, with great zeal and festivity. The celebration began with the morning assembly, followed by a role play and bhajans of Krishna. The little devotees mesmerized us with their creative skills and decorated beautiful matkis and Krishna headband. Tiny tots looked beautiful as they dressed up in colourful and traditional attire, which added a mystic touch to the entire celebration. Their dances enthralled and won everybody's heart. It was indeed an exciting and jubilant celebration enjoyed by the children and teachers.

Seed Germination

"For a better tomorrow plant more trees and make this planet a better place to live in." - Anonymus

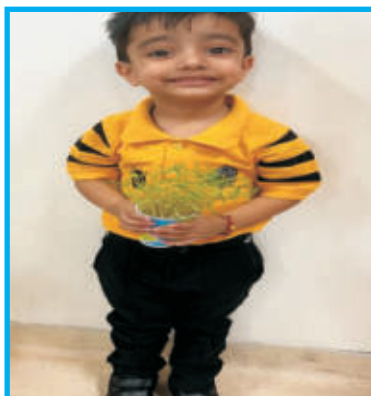

DPS, GBN not only focuses on holistic development but also teaches them to be good and responsible human beings. To instil the importance of protecting our environment, Grade Nursery conducted a Seed Germination Activity on September 14, 2023. Children were told to plant seeds that they could easily get at home, add water, and place the pot in the sun. Teacher used a variety of teaching aids to engage the class in a light-hearted explanation of what a seed needs to grow into a plant. Children were asked to observe their pot for a few days. Children were also encouraged to plant more saplings in their surroundings to keep our environment green.

Go Green

"Green is a colour of calmness and relaxation which also provides a sense of vitality and renewal." - Anonymus

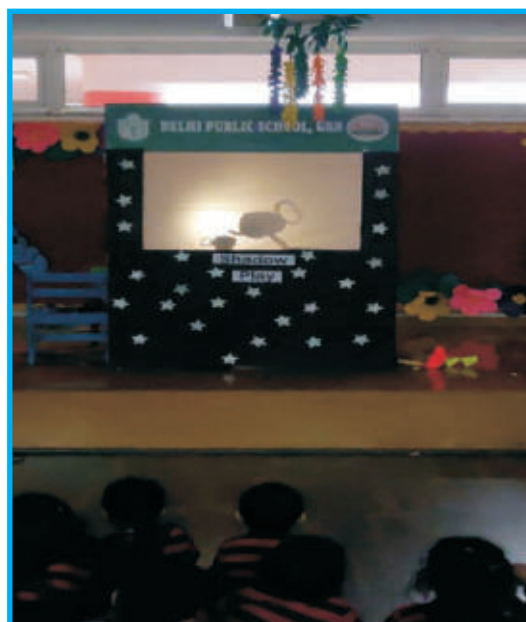

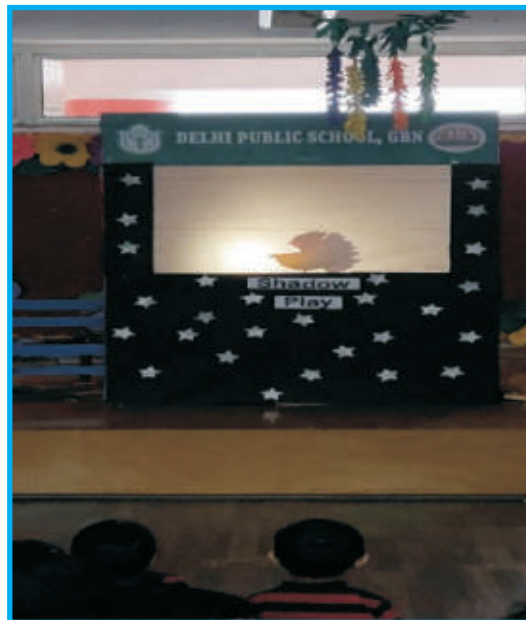

Inculcating good habits has always been an integral part of the DPS, GBN curriculum. We believe that a healthy body leads to a healthy mind and keeping this thought in mind, Pre-nursery celebrated Green Day on September 14, 2023, with great fervour. Children decked up in green attire and joyfully participated in various fun-filled activities. The day started with a discussion on the value of eating green vegetables. To add fun element to this, a salad-making activity was conducted, wherein little chefs made nutritious salad by adding varieties of vibrant veggies with their tiny hands. Our young learners found it to be an engaging experience, and they were delighted in making and eating the tongue-tickling salad.

Black Colour Day

"Black is the sky late at night, Black is the colour when I shut my eyes tight." - Anonymus

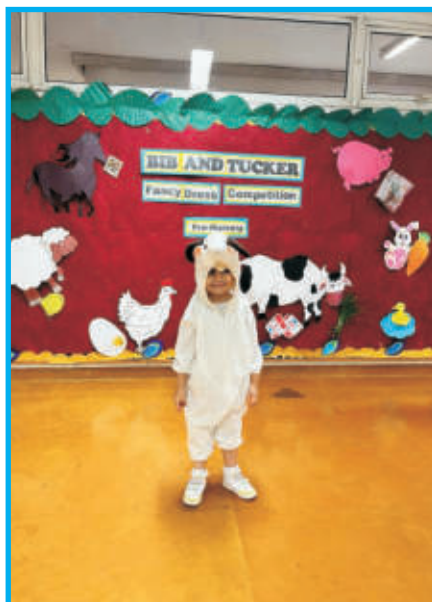

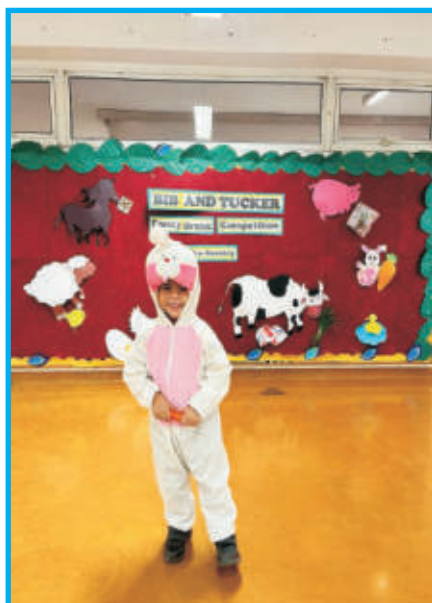

To reinforce the effects of black colour, Grade Nursery celebrated Black Colour Day on September 19, 2023. Children and teachers were dressed in different hues and tints of black to commemorate a day dedicated to the colour. Focusing on the theme, teachers planned a Special Assembly and a jaw-dropping shadow play for the kids. The children were mesmerized by the animals' ominous black shadows. It was great to see our students' participation as they enjoyed doing the art and craft activity with great fun.

Bib and Tucker

"Dress up your imagination and let your creativity shine infancy attire."
- Anonymus

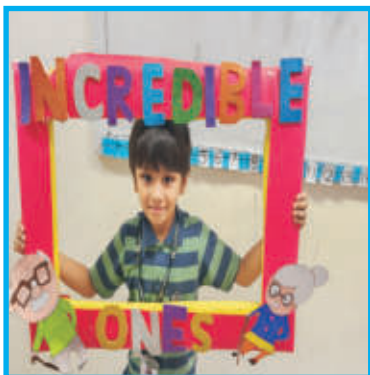

To reinforce the concept of Farm animals, DPS, GBN organised the Fancy Dress activity named Bib and Tucker on September 25, 2023, for our young learners of Grade Pre-nursery. The little munchkins adorned themselves as playful pigs, moo-velous cows, fluffy sheep, and clucking chickens. It was a barnyard bonanza of costumes, fostering creativity and connecting with the animal kingdom while having fun in an educational setting. Children enthusiastically participated in the activity and were happy being dressed up as farm animal. It was a great learning experience for our children.

Incredible Ones

"Grandparents are a delightful blend of laughter, caring deeds, wonderful stories, and love." - Anonymus

Grandparents play an essential role in the life of every child. The pampering that kids receive from their grandparents leaves a lasting impression on their lives. Learners of Grade Prep got the opportunity to strengthen this bond as they celebrated Grandparents' Day on September 26, 2023, with lots of enthusiasm. The celebration began with a special assembly named Incredible Ones, where the young stars left everyone awestruck with their performances and creative expressions. With their melodious voices, energetic dance performances, and incredible acting skills, they conveyed the importance of grandparents. The children also made a beautiful card and wrote a special note for their grandparents. It was a day filled with love, laughter, and great memories that will be cherished for lifetime.

Sprout Chaat

Healthy eating habits should be instilled from early age, and to make this habit fun-filled and enjoyable for our young minds, Grade Nursery organized a healthy 'Sprouts Salad Making Activity' on September 25, 2023. The excitement of our dipsites seemed to be super high as they enthusiastically geared up to turn into little master chefs. The students prepared the delicious salad by meticulously following their teachers' instructions. The activity helped them to learn the names of the spices and vegetables used for making the salad. Preparing the chaat on their own boosted their confidence and made them more independent.
