A Day of Gratitude: DPS, GBN Celebrates Teachers' Day

DPS, GBN hosted a vibrant and heartwarming celebration to honour their beloved teachers on Teachers' Day. The young students of Class I expressed their appreciation for their teachers by making heartfelt cards and writing inspiring quotes. Class II students came to the forefront, showcasing their creativity and affection through a variety of performances. The young learners prepared a delightful list of songs and dances, expressing their gratitude and admiration for their educators. Their heartfelt performances filled the air with joy and appreciation. As a token of their love, the students brought handmade cards and some even dressed up as their favourite teachers, demonstrating their respect and admiration. To make the day even more special, the school allowed students to come to school in casual attire, reflecting the relaxed and celebratory atmosphere. While formal academics were put on hold for the day, the senior students stepped in to play the role of teachers, providing the younger ones with a unique and enjoyable learning experience.

Hindi Diwas Celebration at DPS, GBN

"Hindi is not just a language; it's a culture, a heritage, and a way of life."

Children of Class II celebrated Hindi Diwas on September 14, 2024, with great enthusiasm and joy. The day was marked by a special assembly that showcased the rich heritage and beauty of the Hindi language. The assembly commenced with the singing of the national anthem, followed by a prayer. The students then mesmerized the audience with melodious Hindi songs and vibrant dance performances. A beautiful play highlighting the significance of Hindi in Indian culture was also staged.

To inculcate a deeper appreciation for the language among the students, a Hindi creative writing work was done in the class. This exercise aimed to encourage them to preserve cultural heritage and nurturing national unity. The celebration was a huge success, leaving a lasting impression on the students and reinforcing the importance of Hindi in their lives.

Guardians of the Nature: Students Champion Clean Energy

"The future is green energy, sustainability, renewable energy."

– Arnold Schwarzenegger

"The future is green energy, sustainability, renewable energy." – Arnold Schwarzenegger
In a world where environmental concerns are increasingly pressing, it's heartening to see even our youngest students taking up the mantle of protecting the environment. On September 20, 2024, our Grade 1 students participated in an inspiring 'Guardians of the Nature' activity, focusing on the United Nations Sustainable Development Goal 7 (SDG 7): Affordable and Clean Energy. The classrooms buzzed with excitement as our young learners transformed into budding environmentalists and artists. Armed with an abundance of creativity, students made colorful posters that showcased a remarkable understanding of clean energy concepts. Their artwork depicted the use of solar and wind energy, with before-and-after scenes showing the impact of fossil fuels versus renewable energy. But our students didn't stop at visual representations. In a heart-warming display of confidence and knowledge, they took turns presenting their posters and sharing their thoughts on clean energy.

It was clear that these young minds not only grasped the basics of renewable energy but also understood its importance for our planet's future. This activity has proven that it's never too early to start learning about and caring for our environment.

Unheated Eats: A Culinary Adventure to Combat Hunger

On September 20, 2024 at DPS, GBN, children of Class II entered on a unique culinary adventure to promote sustainable and healthy eating habits. The students were introduced to the concept of fireless cooking, a method that involves preparing food without the use of heat. The activity aimed to raise awareness about SDG Zero Hunger, a global goal aimed at eradicating hunger and ensuring food security for all. Fireless cooking, as a sustainable and efficient method, can play a significant role in achieving this goal. The students were encouraged to bring leftover materials from home that could be used for cooking. With the guidance of teachers, they learned to make coconut laddoos, a traditional Indian sweet that can be prepared without heat. After successfully creating their delicious treats, the students distributed the coconut laddoos to the School's helper staff, sharing their culinary creations with those who contribute to the School's daily operations. This activity not only provided a hands-on learning experience for the students but also fostered a sense of gratitude and compassion. By understanding the importance of sustainable food practices and contributing to the well-being of others, the students took a step towards becoming responsible global citizens.

Exploring Nature (W.E)

"Nature always wears the colors of the spirit." - Ralph Waldo Emerson

DPS, GBN organised a series of engaging Work Education (W.E) sessions for Classes I and II students, centered around the theme of 'Animals and Nature'. The aim was to immerse students in the wonders of nature through engaging activities that fostered curiosity and learning. Students embarked on an exciting visit to our School garden, where they observed various plants and insects in their natural habitat. This outdoor classroom experience allowed children to identify different types of plants and flowers, learn about the importance of pollinators like bees and butterflies and understand the concept of ecosystems on a small scale. The children's eyes lit up as they discovered colorful butterflies, busy ants, and even a family of ladybugs during their garden adventure!

In another session, our young environmentalists got creative by making their own bird feeders. This activity not only honed their fine motor skills but also taught them about local bird species and their dietary needs, the importance of supporting wildlife and recycling and upcycling materials for a good cause. Using simple materials like earthen pots, and birdseed, the students crafted charming feeders to hang in their gardens or balconies at home. The sessions concluded with an interactive lesson on the Food Chain. Through storytelling and role-playing, the students learned about different animals and their roles in the ecosystem. They understood concepts like predators, prey, and the balance of nature. This activity helped them grasp the interconnectedness of all living things. These W.E sessions provided our students with valuable hands-on experiences in nature. It provided a perfect blend of education and fun, leaving the students with a deeper appreciation for the natural world. We look forward to more such enriching experiences that nurture young minds and inspire a love for nature.

Achiever's Gallery

"Achievers are not born talented, but they possess the, 'I can do it' attitude."

– Gladys Bejani

We are thrilled to announce the unveiling of our new Achievers Gallery, a testament to the outstanding accomplishments of our students in recent inter-school competitions. This gallery stands as a vibrant celebration of talent, dedication, and the spirit of excellence that defines our School community. Our stars have shone brightly in the following competitions:

- Amyra Khan (Class I-A) received the Consolation prize in the Recitation Rhapsody competition organised by DPS World School, Noida Extension.
- Inaya Khan, Ayrah Dabas, Trishika Singh, Harshvi Bhati, and Akshita Verma (Class I) were awarded with "The Most Choreographing Change" in the Dance – Embrace the Moment competition organised by Mayoor School, Noida.
- Heyansh Singh, Tanvi Rathi, Darsh Sharma, Kyra Kumar Kostha, Advait Vardhan, Sia Goel, Kiara Kumar, Yunaiv Bhadauriya, and Navika Gupta (Class II) were awarded with "Out of the Box" in the Gestures for the Planet competition organised by Mayoor School, Noida.

Congratulations once again to all our winners, and here's to many more successes to come!
